

List of changes for mobile

Homepage

- Increase the font size for View case study/ enter password for all the cards so that the user is able to click on it I think we can remove it I guess?
- The arrows are too close to View case/ enter password
- The content for the hero section (Hello there.....etc)the font size can be increased a bit
- In the burger menu once the user clicks do the same font weight changes like for desktop (change the font to Palatino and change their colours on click to dark #484848 and light #796B6D)

Rapido

- The font for all the headings need to be changed to Palatino including the quotes (let's get on a call to make the changes) or refer to Zeplin
- The highway illustration size needs to be increased
- Font problems on "voice indicators for driver section" we can fix that on call
- The footer is misaligned

Selfi

- Remove the footer from password page and align the content in the centre
- The font for all the headings need to be changed to Palatino including the quotes (let's get on a call to make the changes) or refer to Zeplin
- A section of image is missing from "What we designed section"refer to Zeplin
- Above the Outcome the mp4 mobile video should be pushed down a little to maintain the positioning.Lets get on a call we will need a call to fix these quick issues

AID

- The font for all the headings need to be changed to Palatino including the quotes, QUICK call suggested. Rest looks fine

VING

- The font for all the headings need to be changed to Palatino including the quote
- Adjustments for a few pics needed, we can fix that on call

INNAZ

- Only the main heading on the hero section needs to be changed to Palatino

Branding & Illustration

- View all projects should redirect to https://www.behance.net/Archana_ponamarev
